

## **CANDY TOSSING DURING THE PARADE**

Candy at the parade has become a serious issue. We receive numerous complaints each year from parents and other parade participants about children running into the street to get the candy. At some points during the parade the children actually stop the movement of the parade trying to get candy from the floats.

**PARADE PARTICIPANTS, we are asking you to provide walkers that throw the candy ALL the way to the side walk in order to keep the children from coming into the street and up to the floats expecting candy to be handed to them.**

**PARENTS, please supervise your children and stop them from running into the street after the candy. Their safety is a risk.**

Without your cooperation about this Candy issue, we will be forced to ban candy from the parade entirely.

No other items may be handed out at the parade. They become trash on the streets and in citizens yards that someone has to clean up.

Thank you

# General Canby Days Parade Route Map

Length is about 1.2 miles
